

RIVET COUNTER HO SCALE GUNDERSON MULT-MAX AUTORACK

Our **Rivet Counter™** brand strives to create the most accurately detailed model trains imaginable. The real-world counterpart is meticulously researched to ensure prototype fidelity. Each model features numerous factory applied parts including **railroad, road number, and era-specific™** details whenever possible.

In 2013, Greenbrier/Gunderson introduced a new design called "Multi-Max" that aimed to provide the ultimate protection for vehicles and operational flexibility. This design addressed challenges faced by railroads and shippers in the 21st century. The traditional enclosed autorack used to protect new autos from projectiles could not prevent graffiti. Paint spray would pass through the perforations in the side panels and onto the new automobiles, ruining their finish. Multi-Max reduced the chance of paint spray passing through by featuring smaller, fewer, and more widely spaced perforations in its side panels.

Multi-Max also has an innovative design feature, being able to adjust the number of decks for automobiles of different heights. Bi-level autoracks are intended to carry taller vehicles like SUVs or vans, while tri-level autoracks, with an additional deck, handle shorter-in-height standard or compact autos in the same given space. The ability for railroad car shops to change the car configuration from bi-level to tri-level, or vice-versa, as traffic patterns dictate, eliminates the need to order bi- and/or tri-level racks based upon anticipated traffic from manufacturing plants. This feature is beneficial when production shifts from one vehicle type to another, resulting in a surplus of car types unsuitable for the new traffic.

ROADNAME AND ROAD NUMBER SPECIFIC SCALETRAINS

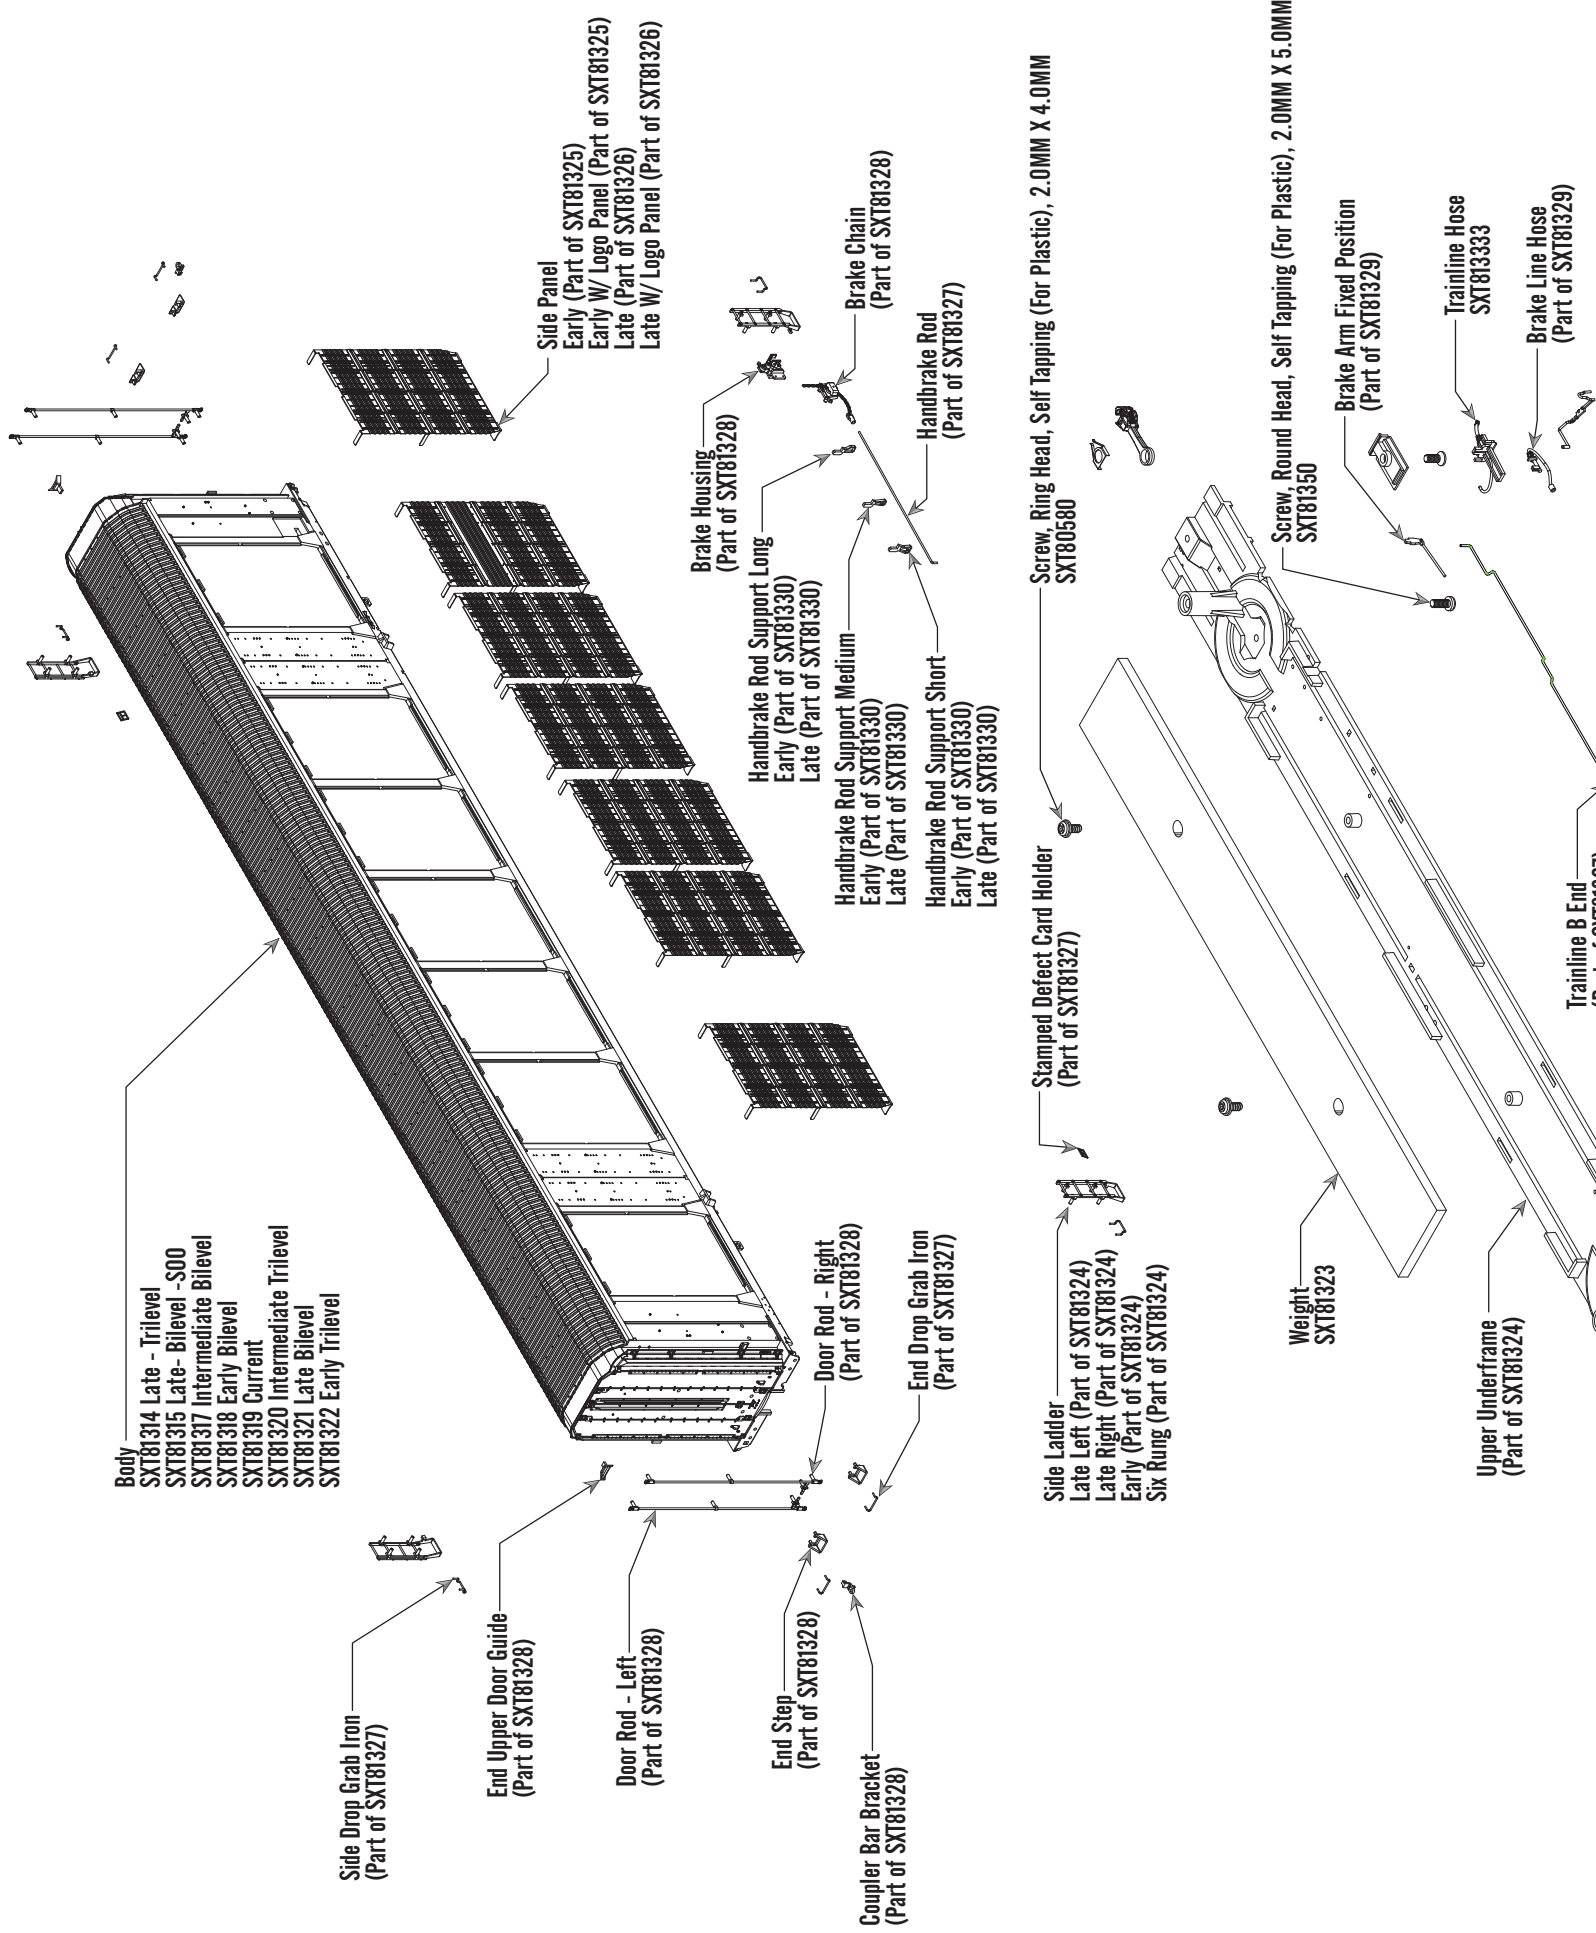

- All new model
- Car rack numbers and ARR rack clearance data is specific to each car number
- 14 photo etched metal side panels
- Rivet details on colored panels represent either bilevel or trilevel versions
- Separate door rods
- All-metal Type E extended shank couplers
- All-new ASF low deck swing motion trucks with rotating axle bearing caps
- 28" machined metal wheels
- Highly detailed underbody brake system with wire form brake rods and air line plumbing, photo etched metal brake rod and air line plumbing support brackets; plastic brake beams, air reservoir, brake cylinder, control valve and retainer valve
- Photo etched metal defect card holder
- Minimum radius 24", recommended radius 26"
- Fully assembled
- Color matched to Tru-Color paint colors when possible
- Photo-etched stainless steel see-through end crossover platforms
- Printing and lettering legible under magnification
- Accurately profiled .110" wide wheel tread
- Coupler cut levers
- Trainline hoses
- Intricate brake plumbing
- Weighted to Industry standards
- Operates on Code 70, 83 and 100 rail
- Packaging safely stores model

WARRANTY POLICY

ScaleTrains.com, Inc. (ScaleTrains) warrants products purchased from our website to be free from defects in material and workmanship for a period of two (2) years from the date of purchase. Products purchased directly from ScaleTrains are automatically registered and a receipt is not required for proof of purchase.

ScaleTrains warrants products purchased from an authorized Select Retailer to be free from defects in material and workmanship for a period of one (1) year from the date of purchase. The warranty period can be extended to two (2) years by registering the product within 30 days of purchase on our website at www.ScaleTrains.com/warranty. Be sure to retain the receipt as proof of purchase as it may be required in the event your model requires warranty service by our Service Center.

If the product fails during the limited warranty period, carefully pack the model in the original packaging. Be sure to include an explanation of the issue(s) along with your name, address, phone and email. If the product(s) were purchased from a Select Retailer, include a legible copy of the sales receipt.

Ship item(s) for repair to our Service Center at...

ScaleTrains Service Center
4901 Old Tasso Road NE
Cleveland, TN 37312

We recommend using a trackable shipping service. Shipping damage incurred on the way to our service center and costs associated with shipping are not covered under warranty.

Damages due to improperly storing, handling, or packaging are not covered under warranty.

If ScaleTrains.com deems the product to be defective, we will either (1) repair (2) replace the item, or (3) offer a store credit redeemable at ScaleTrains.com toward a future purchase. This determination is at the sole discretion of ScaleTrains.

ScaleTrains has the final decision on all warranty matters. The warranty policy is subject to change without notice.
