

RIVET COUNTER™ HO SCALE TRINITY 60' 7500 SERIES HIGH-CUBE BOXCAR

Since the late 1990s, Trinity has built over 10,000 60' Plate F boxcars. Within these many cars are dozens of variations of door sizes, roofs, underframes, and side post arrangements. Today, everything from lumber, steel, beer, and appliances can be seen filling the walls of this staple of modern railroading seen on almost every manifest freight on the rails.

The signature of our **Rivet Counter™** brand, our model of the Trinity 7500 Hi-Cube Boxcar features **railroad, road number, and era-specific™** details including 5 side post variations, 2 horizontal stiffener types, 7 different doors, 5 unique end styles, 5 underframe variations, 10 roof patterns, and 2 truck options depending on the prototype.
